May 21, 2026

Hello Incoming Second Grade Parents,

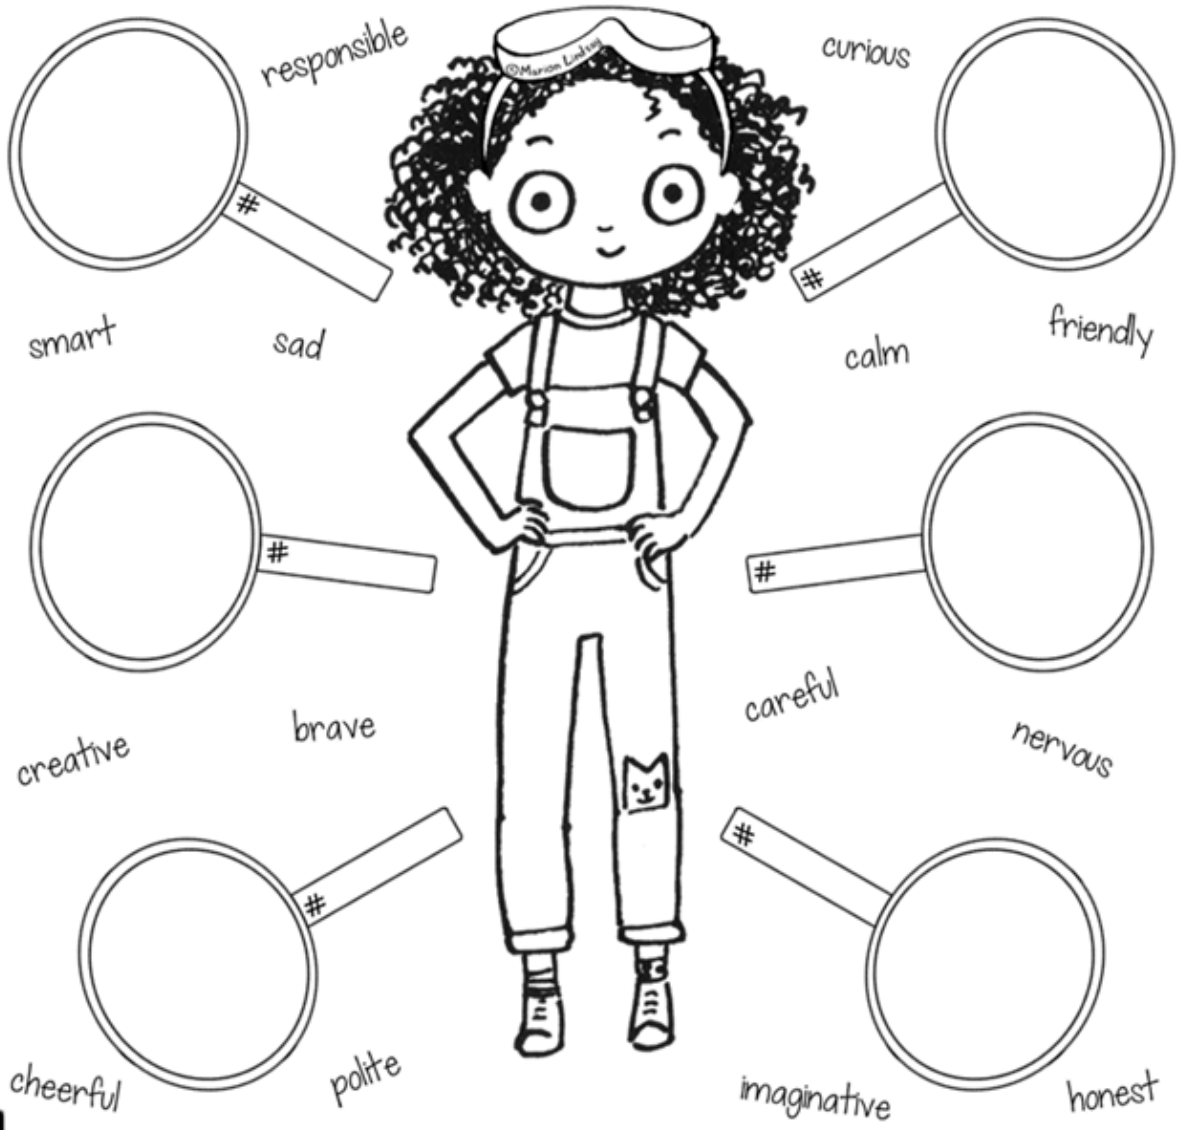
As you prepare for your child's Second Grade year, we want to warmly welcome you and your family. We are excited to be your children's teachers for the 2026-2027 academic year. During the summer, students will be reading one chapter book, *Zoey and Sassafras: Dragons and Marshmallows*. This is a wonderful story about a little girl who loves science and experiments and is drawn into a world of magical animals that she must help save. Our classes this year absolutely loved it, and some students even read it twice. It is a short chapter book that will help encourage a love of reading and get your child excited for the school year ahead.

Attached you will find the assignment students must complete after reading this book. This assignment is to be turned in on the first week of school. Have an amazing and relaxing summer. May God bring health and happiness to each of your families.

God Bless You,

Mrs. Arroyave and Ms. Blanco

Name: _____ Date: _____

Zoey and Sassafras TRAIT DETECTIVE


We can infer character traits by analyzing feelings, thoughts, actions and words. Write six of Zoey's character traits in the magnifying glasses below. In each handle, write a page number where you found proof showing that trait. You can use some of the traits floating around on this page or think of others. Just remember that you must prove it with a page number!
